Jeff.

Dawn is saying she has an urgent situation on this customer and demanding that CE get involved and help resolve. We will do everything to make ourselves available for those customers that are the exception, but I do not see that in this case. Need to know why we informed this customer of the GX270 motherboard issue while they have only had 2 failures and are at 1.1% FIR. This clearly does not match any of the PFR criteria. The customer has the Maxtor issue and Dell is addressing those concerns, but the real issue started when someone informed the customer that their motherboards needed to be replaced. We have provided all the data (approved thru Dell Legal) to explain the capcacitor issue. I am not understanding the urgency here and why this is not being handled by Dawn and the Acct Team. We have agreed to be on this call today, but need a plan on how we will avoid these emergencies in the future.

Duane
